

**The METALSAWZ MZ Series, Heavy Duty,  
 Material Roller Conveyors.**

**GENERAL DESCRIPTION:**

Made in Canada with the highest quality North American made components.

**HEAVY DUTY** construction.

- Welded steel frame and cross members.
- Lateral guides available for increased safety.
- Smooth even operation.
- Heavy duty support rollers.
- Exclusive hexagonal shaft design.

**EASY FIT** spring loaded support rollers.

- Ideal for **HIGH IMPACT** applications.
- Low noise due to precision bearings.
- Easy + or - 3" height adjustment.
- Height adjustment extremely stable.
- Powder coated for durability.
- Wide variety of widths, lengths and height.

**MetalSawz HEAVY DUTY MZ Series Roller Conveyors** are designed and constructed to convey heavy loads in all steel industries and other manufacturing operations, which require heavy-duty conveying equipment. Our conveyors are available in 20" and 25" widths, 5' and 10' lengths and up to 40" height. We use heavy-duty 4" wide channel in their construction. 2-3/4" Round with 1/4" wall thickness HSS is used for the spring loaded easily replaceable rolls. Low Friction bearings which run on 1 1/16" hexagonal shafts, support the rolls. Rolls are spaced on one-foot centers.

**5'0" Material conveyor:** made with heavy-duty 4" channel and 2 3/4" "DOM" tubing with 1/4" wall thickness. Only high quality steel bearings are used for long life. Rollers are on 12" centers and have 500 lbs per roller capacity.

**10'0" Material conveyor:** made with heavy-duty 4" channel and 2 3/4" "DOM" tubing with 1/4" wall thickness. Only quality steel bearings are used for long life. Rollers are on 12" centers and have 500 lbs per roller capacity.
